ASX Announcement

## Tenement update

As a consequence of a communication issue, the Exploration Licences referred to in the Schedule, expired on the dates indicated, without the appropriate renewal applications being filed with the SA Department of Energy and Mining.

Subsequent discussions with the Department have resulted in the Company making the decision to re-apply for a re-grant of these tenements.

Pending the re-grant of these ELs, any exploration work planned for those ELs has been postponed until at least the time when the position is resolved which, the Company anticipates would be capable of being achieved by early February 2019.

No other licences of the Company are affected.
