ASX Announcement

PROSPECTUS LODGEMENT

Woomera Mining Limited (ACN 073 155 781) (ASX:WML) (**Woomera Mining** or the **Company**) is pleased to announce that it has today lodged a prospectus with the Australian Securities and Investments Commission for the following:

- (a) a non-underwritten, pro-rata, non-renounceable rights offer to Eligible Shareholders on the basis of one (1) New Share for every 1.2 Shares held on the Record Date at an issue price of A\$0.025 per New Share, together with one (1) free attaching New Option for every two (2) New Shares subscribed for and issued, to raise approximately \$2.789 million (**Priority Offer**);
- (b) an offer to Eligible Shareholders of any New Shares not applied for under the Priority Offer (**Shortfall Offer**) and all New Shares subscribed for and issued pursuant to the Shortfall Offer will entitle the Eligible Shareholder to the corresponding New Options; and
- (c) to the extent that the number of Shares applied for under the Priority Offer and the Shortfall Offer is less than 111,567,118, the remaining Shares will be available for subscription to Eligible Shareholders and the public at the same Offer Price as the Priority Offer and Shortfall Offer (**Public Offer**),

(collectively, the **Offers**).

The Offers open on 21 August 2019 and close at 5.00pm ACST on 11 September 2019.

A copy of the Company's prospectus accompanies this announcement.

Important Notices

This Prospectus has been issued by Woomera Mining Limited (ACN 073 155 781) (ASX:WML) (**WML**, **Woomera Mining** or the **Company**) and was lodged with ASIC and ASX on 13 August 2019 and is dated 13 August 2019. Neither ASIC nor ASX takes any responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates.

Application for quotation of the New Securities will be made to ASX within 7 days of the date of this Prospectus. The fact that ASX may quote the New Securities is not to be taken in any way as an indication of the investment to which this Prospectus relates.

No New Securities will be allotted or issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

Woomera Mining is an ASX listed company whose securities are granted official quotation by ASX. In preparing this Prospectus, regard has been had to the fact that Woomera Mining is a disclosing entity for the purpose of the Corporations Act and that certain matters may reasonably be expected to be known to investors and professional advisers whom investors may consult.

Before deciding whether to accept the Offer, you should read and understand the entire Prospectus and, in particular, you should consider the risk factors that could affect Woomera Mining's performance. You should carefully consider these factors in light of your personal circumstances (including financial and taxation issues) and seek advice from your professional adviser before deciding to invest. **Investing in Woomera Mining involves risks. Refer to the 'Risk Factors' in Section 8 for a discussion of certain risk factors that you should consider before deciding to accept the Offer.**

No person is authorised to give any information or to make any representation in connection with this Prospectus which is not contained in the Prospectus. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Prospectus.

Nature of this Prospectus

The New Securities that will be issued under this Prospectus are continuously quoted securities (as defined in the Corporations Act). This Prospectus is a transaction specific prospectus to which the special content rules under section 713 of the Corporations Act apply. That provision allows for the issue of a more concise prospectus in relation to an offer of securities in a class that has been continuously quoted by ASX in the three (3) months prior to the date of the prospectus. In general terms transaction specific prospectuses are only required to contain information in relation to the effect of the issue of New Securities on the Company and the rights attaching to the New Securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus contains information only to the extent to which it is reasonable for investors and their professional advisers to expect to find the information in it. It does not include all of the information that would be included in a prospectus for an initial public offer.

This Prospectus provides general information to assist you with your own evaluation of the Company's exploration assets. This Prospectus is not, and is not intended to be, advice on legal, financial, taxation

Prospectus

or investment matters nor is it intended to be financial product advice from the Company or any of its directors, employees, agents or advisers.

The information contained in this Prospectus has been prepared by the Company. The mineral tenements of the Company as described in this Prospectus are at various stages of exploration, and potential investors should understand that mineral exploration and development are high risk undertakings. There can be no assurance that exploration of the Tenements, or any other tenements that may be acquired in the future, will result in the discovery of economic ore deposits. **Refer to the 'Risk Factors' in Section 8 for more detail.**

Prospectus availability

This Prospectus will be issued in paper form, and as an electronic Prospectus.

An electronic copy of this Prospectus can be downloaded from www.woomex.com.au and www.asx.com.au.

If you are accessing the electronic version of this Prospectus, you should ensure that you download and read the entire Prospectus.

If you are accessing the electronic version of this Prospectus for the purposes of making an investment in the Company, you must be an Australian resident and must only access this Prospectus from within Australia.

The Corporations Act prohibits any person passing on to another person an Entitlement & Acceptance Form unless it is attached to a hard copy of this Prospectus or it accompanies the complete and unaltered version of this Prospectus. You may obtain a hard copy of this Prospectus free of charge by contacting the Company.

Exposure Period

No exposure period applies to the New Shares offered under this Prospectus due to the relief granted by *ASIC Corporations (Exposure Period) Instrument 2016/74*, as the Shares offered are in a class of securities that are quoted on the ASX.

Forward-looking statements

This Prospectus includes or may include forward-looking statements that have been based on current expectations about future acts, events and circumstances. These forward-looking statements are, however, subject to risks, uncertainties and assumptions that could cause those acts, events and circumstances to differ materially from the expectations described in such forward-looking statements. These factors include, among other things, commercial and other risks associated with the meeting of objectives and other investment considerations, as well as other matters not yet known to the Company or not currently considered material by the Company. Forward-looking statements include those containing such words as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', 'intends', 'anticipates' and other similar words that involve risks and uncertainties. The statements reflect views held only at the date of this Prospectus. In light of these risks, uncertainties, and assumptions the forward-looking statements contained in this Prospectus might not occur. Investors are therefore cautioned not to place undue reliance on these statements.

Restrictions on distribution

This Prospectus contains an offer to Eligible Shareholders in Australia and New Zealand.

This Prospectus does not constitute an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make such an offer or invitation. No action has been taken to lodge this Prospectus in any jurisdiction outside of Australia or to otherwise permit a public offering of New Securities in any jurisdiction outside Australia. This Prospectus is not to be distributed in, and no offer of New Securities is to be made in, countries other than Australia or New Zealand.

It is the responsibility of Applicants to ensure compliance with any laws of the country relevant to their application. Return of a duly completed Entitlement and Acceptance Form will be taken by Woomera Mining as a representation by the Applicant that there has been no breach of such laws, that the Applicant is an Eligible Shareholder and that the Applicant is physically present in Australia or New Zealand.

Neither this Prospectus nor the New Securities have been, or will be, registered under the *Securities Act of 1933* (US) or the securities laws of any state of the United States and the Offer is not being made in the United States or to persons resident in the United States. Without limitation, neither this Prospectus nor the accompanying Entitlement and Acceptance Form may be sent to investors in the United States or otherwise distributed in the United States.

New Zealand

The New Securities are not being offered or sold to the public within New Zealand other than to existing Shareholders with registered addresses in New Zealand, to whom the offer of New Securities is being made in reliance on the *Securities Act (Overseas Companies) Exemption Notice 2013* (New Zealand).

This Prospectus has been prepared in accordance with section 713 of the Australian Corporations Act. This Prospectus has not been registered, filed with, or approved by any New Zealand regulatory authority under the *Securities Act 1978* (New Zealand). This Prospectus is not an investment statement or prospectus under New Zealand law and is not required to, and may not, contain all the information that an investment statement or prospectus under New Zealand law is required to contain.

Representations and warranties

No person is authorised to give any information or to make any representation in connection with the Offer which is not contained in this Prospectus. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with the Offer.

Defined terms and time

Defined terms used in this Prospectus are contained in Section 9. All references to time are references to ACST unless otherwise specified.

Privacy

If you complete an Application by way of an Entitlement & Acceptance Form for New Securities, you will be providing personal information to the Company (directly or via the Share Registry). The Company will collect, hold and will use that information to assess your Application, service your needs as a Shareholder, facilitate distribution payments and corporate communications to you as a Shareholder and carry out administration.

By submitting an Entitlement & Acceptance Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Entitlement & Acceptance Form for the purposes set out in this privacy disclosure statement and may disclose it for those purposes to the Share Registry, the Company's related bodies corporate, agents, contractors and third party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

The Corporations Act requires the Company to include information about the Shareholder (including name, address and details of the Shares held) in its public register.

The information contained in the Company's public register must remain there even if that person ceases to be a Shareholder. Information contained in the Company's register is also used to facilitate distribution payments and corporate communications (including the Company's financial results, annual reports and other information that the Company may wish to communicate to its security holders) and compliance by the Company with legal and regulatory requirements.

If you do not provide the information required on the Entitlement & Acceptance Form, the Company may not be able to accept or process your Application. An Applicant has the right to gain access to the information that the Company holds about that person subject to certain exceptions under law. A fee may be charged for access. Such requests must be made in writing to the Company's registered office.

Specific Disclosures in respect of Mt Venn

The exploration results for the Mt Venn Project have been reported by the former owner, Cazaly Resources, rather than the acquirer, Woomera Mining. The exploration results may not conform to the requirements in the JORC Code 2012, and the Company at this time continues to evaluate the exploration work that needs to be completed to report the exploration results in accordance with the JORC Code 2012. WML directs investor's attention to the following cautionary statement about the Mt Venn Project:

- (a) some of the early historic exploration results have not been reported in accordance with the JORC Code 2012;
- (b) a Competent Person has not done sufficient work to disclose the exploration results in accordance with the JORC Code 2012;
- (c) it is possible that following further evaluation and/or exploration work that the confidence in the prior reported exploration results may be reduced when reported under the JORC Code 2012;
- (d) that nothing has come to the attention of the Company that causes it to question the accuracy or reliability of the former owner's exploration results; but
- (e) the Company has not independently validated the former owner's exploration results and therefore is not to be regarded as reporting, adopting or endorsing those results.

The Company intends to fund any evaluation and/or exploration work from existing cash and the proposed capital raising. Mr Gerard Anderson, a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' states that the information in this Prospectus concerning the Mt Venn Project is an accurate representation of the available data and studies for the project.

Competent Persons Statement

The exploration results reported herein, insofar as they relate to mineralisation, are based on information compiled by Mr Gerard Anderson, Managing Director of the Company. Mr Anderson is a Member of the Australasian Institute of Mining and Metallurgy who has over forty-two years' experience in the field of activity being reported. Mr Anderson has sufficient experience which is relevant to the styles of mineralisation and types of deposit under consideration and to the activity that he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' relating to the reporting of Exploration Results. Mr Anderson consents to the inclusion in this Prospectus of matters based on his information in the form and context in which it appears.

Chairman's Letter

13 August 2019

Dear Investor,

On behalf of the Directors of Woomera Mining Limited (ACN 073 155 781) (ASX:WML) (**Woomera Mining** or the **Company**) I am pleased to offer you the opportunity to acquire Shares and Options in the Company.

This Prospectus contains an offer to existing Eligible Shareholders of the Company and an offer to both existing Eligible Shareholders and the public.

If you are an existing Eligible Shareholder, you are invited to subscribe for one (1) ordinary Share (**New Share**) for every 1.2 Shares you hold as at the Record Date at an Offer Price of \$0.025 per New Share, together with one (1) free attaching Option for every two (2) New Shares subscribed for and issued (**New Option**). This is the **Priority Offer**.

Any New Shares not applied for under the Priority Offer will form the **Shortfall Offer**, and all New Shares subscribed for and issued pursuant to the Shortfall Offer will entitle the Eligible Shareholder to the corresponding New Options.

To the extent that the number of New Shares applied for under the Priority Offer and the Shortfall Offer is below 111,567,118, the remaining New Shares and relevant New Options will form part of a general offer to Eligible Shareholders and the public. This is the **Public Offer**.

The Company is also pleased to announce that it has received binding commitments for a private placement to institutional, professional and sophisticated investors (**Placement**) of 21,176,108 Shares at \$0.025 per Share, that will raise a total of \$529,402.70. These investors will also be issued 10,588,054 attaching Options subject to Shareholder approval.

Settlement of the Shares under the Placement will have occurred by the Record Date, and accordingly those investors are entitled to participate in the Priority Offer and Shortfall Offer as Eligible Shareholders.

The Company has entered into an agreement with Cazaly Resources Limited (ASX: CAZ) for the purchase of 100% of the issued share capital of Yamarna West Pty Ltd, which in turn will enter into a joint venture agreement to conduct exploratory mining operations in relation to the Mt Venn Gold Project (**Project**). The Company will therefore control an 80 percent interest in the Project on completion. Refer to Section 3.2 for additional information.

The funds raised under the Placement and this Prospectus will be applied towards the following.

Use of Funds	Amount (A\$)
Acquisition of 80% interest in Mt Venn Gold Project	980,000
Exploration expenditure in relation to Mt Venn Gold Project	1,200,000
Working Capital	853,581
Expenses of the Offer	285,000

Total	\$3,318,581
-------	-------------

The Company intends to allocate the funds raised as set out in the preceding table. However, in the event that circumstances change or other more favourable opportunities arise, the Company may vary the proposed use of funds to maximise the benefit to Shareholders and, to the extent that the Company does not raise the full amount of funds it is seeking to raise, the Company will reduce its expenditure as required.

The Company has been successful in its application to participate in the Junior Mineral Exploration Incentive Scheme (**JMEI**) for the 2020 Financial Year. Eligible Shareholders who participate in the Offer may therefore be eligible to be issued with JMEI credits. Refer to Sections 2.13 and 8.2(s) for additional information.

This Prospectus contains detailed information about the Offers and the Company's business, as well as the risks of investing in the Company. I encourage you to read it carefully.

Yours sincerely,

Mr Neville Martin
Chairman

1. Overview of the Acquisition

1.1 Mt Venn Gold Project

The Mt Venn Gold Project (“**Project**”) is located 125 kilometres northeast of Laverton in the Eastern Goldfields of Western Australia, and the Project area resides within the Mount Venn Greenstone Belt. The tenements that relate to the Project area are the subject of a Heads of Agreement to acquire the Project from Cazaly Resources, by way of the Company acquiring a subsidiary company of Cazaly Resources that holds the relevant tenements.

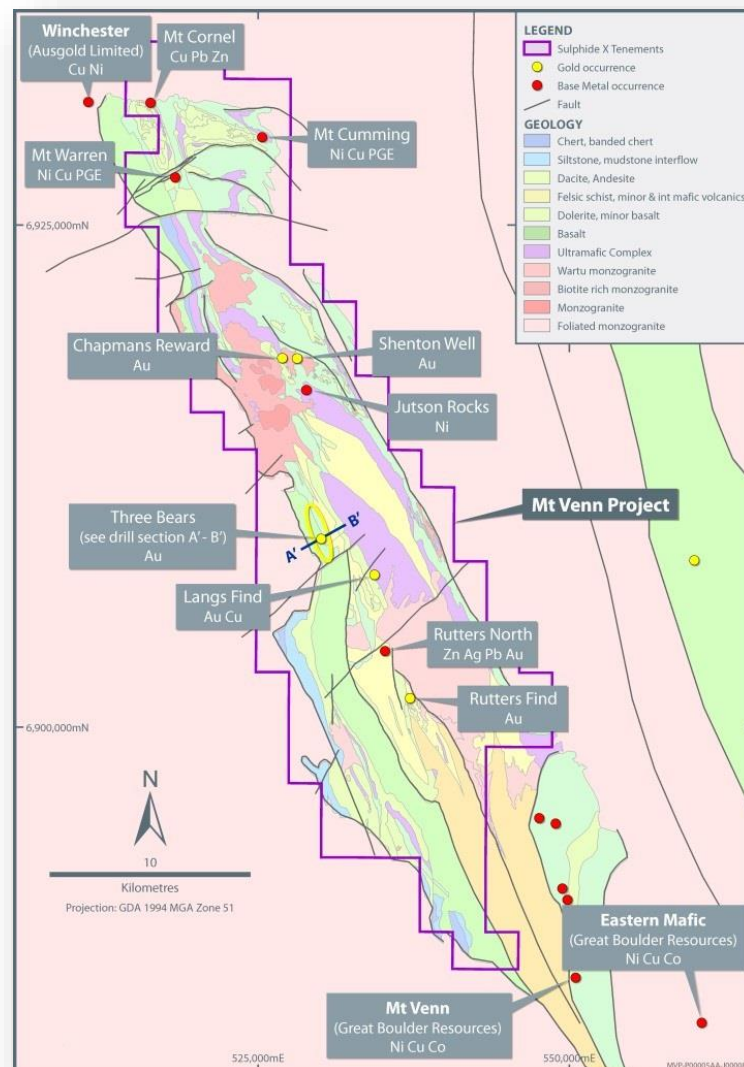

Historically, gold exploration at Mt Venn has been limited due to its remoteness and lack of outcrop, with only minor gold mining occurring in the early 1920s relating to high-grade quartz veins at Chapman’s Reward (WA Department of Mines 1923 Annual Report) and occasional base metal exploration occurring since this time. More recently, the discovery of the Gruyere gold deposit in September 2009 by Gold Road Resources Ltd (ASX: GOR) has demonstrated that these greenstone belts have significant exploration potential, and developments of mines in respect of these discoveries have opened up a previously remote area.

While there has been limited systematic gold and base metal exploration at Mt Venn, the work completed to date indicates significant potential for gold mineralisation, including for high grade gold. There is also potential for nickel-copper-cobalt mineralisation as indicated from airborne electromagnetic surveys that identified numerous conductors (ASX:CAZ Announcement 16 November 2017). The Company believes, based on the information available to it, that the Project is a promising opportunity.

The Project tenements cover approximately 50 kilometres of a north/northwest trending greenstone succession consisting of intrusive and extrusive ultramafics, mafic and felsic rocks, pyroclastics and metasediments. The Jutson Lineament extends through the entire strike length of the Project, with subsidiary splays trending through the felsic rocks to the south. Several north-south faults and shears, as well as east-west trending quartz filled fractures, post-date the more regional structures and appear to be associated with known mineralisation.

1.2 Potential of the Project

Subject to the disclosures and qualifiers detailed in Section 8.3, the Company has assessed the overall potential for economic gold discoveries to be excellent. There are several gold targets that could be drilled once appropriate clearances and approvals are completed (ASX:CAZ Announcement 27 February 2017). There are also adjacent geochemical anomalies that have not been drilled, and numerous other ‘gold in soil’ anomalies have never been drilled.

Ground and airborne electromagnetic surveys in the northern tenement recorded a number of late time conductors interpreted as being potential sulphide sources in the basal contact zones of the mafic/ultramafic intrusions. These positions are similar to the structural and stratigraphic setting of major nickel-copper sulphide deposits elsewhere in Western Australia. The Company

notes that Reverse Circulation drilling of a number of conductor targets did not intersect sulphides, however, several conductors were not drill tested due to funding limitations.

Previous drilling intersected widespread and thick low-grade zinc mineralisation within felsic volcanics (ASX:CAZ Announcement 27 February 2017). While the zinc anomalism is low-grade, it is possible its extensive development coupled with elevated gold, silver, arsenic, copper and lead occurring in felsic volcanics is indicative of potential volcanogenic massive sulphide mineralisation at depth.

1.3 Acquisition of 80% interest in Mt Venn Gold Project

The Company has entered into the Share Purchase Agreement with Cazaly Resources pursuant to which the Company has agreed to purchase 100% of the issued share capital of Yamarna West. Yamarna West and Cazaly Resources have also agreed the key terms of a joint venture agreement to conduct exploratory operations for minerals in the Tenements, having the effect that the Company will control an 80 percent interest in the Tenements on completion (**Acquisition**).

The joint venture in relation to Mt Venn (**Mt Venn JV**) is to be governed by an exploration joint venture agreement between Yamarna West holding an 80 percent interest and Cazaly Resources holding a 20 percent interest. All the rights and obligations of the parties under the Mt Venn JV are to be owed according to the party's relevant proportional interest, subject to:

- (a) Yamarna West being responsible for all expenditure for the period from entry into the Mt Venn JV until the completion of the pre-feasibility study in relation to the Tenements (referred to as the **free carry period**); and
- (b) CAZ may elect at the conclusion of the free carry period not to contribute further expenditure, and instead transfer its interest in the Mt Venn JV to Yamarna West and obtain an entitlement to a net smelter royalty of 2 percent of the value of all sales of minerals from the Tenements.

All property is owned severally by the parties as tenants in common in their respective proportions.

Parties may propose that a development proceed to a pre-feasibility study by submitting a proposal to the management committee. If the proposal receives a majority vote, then the parties must proceed with a mining lease application. Those members voting to proceed are deemed to be party to a separate mining joint venture over the relevant area, and the other members must sell their interest in the proposed mining lease area to the proceeding members. The Mt Venn JV is to be limited to the Tenements unless otherwise agreed between the joint venture parties, and will not extend to any mining development or other activity conducted by the Company or Yamarna West in other areas or in respect of other tenements.

Yamarna West shall act as the manager of the Mt Venn JV, which entitles the entity to the management fee, being the amount agreed by the parties to be paid by the joint venturers to the manager.

Refer to Sections 9.1 and 9.2 for summaries of the material contracts that give effect to the Acquisition.

2. Details of the Offer

2.1 The Offers

By this Prospectus, the Company offers for subscription up to 111,567,118 ordinary shares (**New Shares**) at \$0.025 per New Share (**Offer Price**), together with one (1) free attaching Option for every two (2) New Shares subscribed for and issued (**New Options**), to raise up to \$2,789,177.95.

The Offers comprise:

- (a) a Priority Offer to Eligible Shareholders;
- (b) a Shortfall Offer to Eligible Shareholders; and
- (c) a Public Offer to Eligible Shareholders and new external investors.

Further information regarding the Priority Offer, the Shortfall Offer and Public Offer is set out in Sections 2.2 to 2.4 below. The New Shares offered under this Prospectus will rank equally with the existing Shares on issue.

Rights and liabilities attaching to the New Shares and New Options (together, the **New Securities**) are summarised in Sections 6 and 7 respectively of this Prospectus.

The purpose of the Offers and the intended use of funds raised are set out in Section 3 of this Prospectus.

2.2 Priority Offer

The Company offers New Securities under this Prospectus to Eligible Shareholders, who are those Shareholders that:

- (a) are the registered holders of Shares as at 7:00pm (ACST) on the Record Date; and
- (b) have a registered address in Australia or New Zealand.

The Company reserves the right to reject any Application that it believes comes from a person who is not an Eligible Shareholder.

Eligible Shareholders will be entitled to apply for New Shares under the Priority Offer on the basis of one (1) New Share for every 1.2 existing Shares held as at the Record Date (**Entitlement**), at the Offer Price.

Eligible Shareholders will receive a personalised Priority Offer Entitlement & Acceptance Form setting out their Entitlement. If any of the New Shares available for Eligible Shareholders are not applied for by 5:00pm (ACST) on the Closing Date, those Shares will form part of the Shortfall Offer.

The Company will accept all Applications from Eligible Shareholders under the Priority Offer up to their Entitlement. To the extent that subscriptions from Eligible Shareholders under the Priority Offer exceed their Entitlement, the directors will treat such applications for excess Shares as applications for Shortfall Shares under the Shortfall Offer.

The Company will issue all Eligible Shareholders who subscribe for and are issued New Shares pursuant to the Priority Offer with the corresponding number of New Options as detailed in Section 7.

2.3 Shortfall Offer

Any New Shares not applied for under the Priority Offer will form part of the Shortfall Offer.

In addition to being able to apply for New Shares in the manner described in Section 2.2 above, Eligible Shareholders who subscribe for their full Entitlement will also have the opportunity to apply for additional New Shares that are not subscribed for under the Priority Offer (**Shortfall Shares**), subject to the limitations set out in Section 5.

If any Shortfall Shares available for Eligible Shareholders are not applied for by 5:00pm (ACST) on the Closing Date, those Shortfall Shares will form part of the Public Offer.

2.4 Public Offer

To the extent that the number of New Shares and Shortfall Shares applied for under the Priority Offer and the Shortfall Offer is below 111,567,118, those New Shares will be available for subscription under the Public Offer (**Public Offer Shares**).

The Public Offer is a separate offer made under this Prospectus to both existing Eligible Shareholders and new external investors to the Company who will be treated equally in the allocation of New Securities.

The Offer Price for each New Share to be issued under the Public Offer will be \$0.025, being the Offer Price under the Priority Offer and Shortfall Offer.

Applicants should note that the Directors retain an overriding right to do any of the following at their discretion in relation to the Public Offer:

- (a) accept the Application in full;
- (b) accept the Application in respect of a lesser number of New Securities than applied for;
or
- (c) decline the Application.

Where the number of New Shares issued under the Public Offer is less than the number applied for, or where no issue is made, surplus application money will be refunded without any interest to the Applicant as soon as practicable after the Closing Date.

The Company will issue all Eligible Shareholders and new investors who subscribe for and are issued New Shares pursuant to the Public Offer with the corresponding number of New Options as detailed in Section 7.

2.5 Offers in Australia and New Zealand

The Company has determined, pursuant to ASX Listing Rule 7.7.1 that it would be unreasonable on this occasion to extend the Offer to Ineligible Shareholders having regard to the number of securities held by Ineligible Shareholders and the costs of complying with the legal and

regulatory which would apply to an offer of securities to Ineligible Shareholders in those jurisdictions.

This Prospectus is not to be distributed in, and no offer of New Securities is to be made in, countries other than Australia or New Zealand.

(a) **New Zealand**

The Offers contained in this Prospectus to Eligible Shareholders with registered addresses in New Zealand are made in reliance on the *Securities Act (Overseas Companies) Exemption Notice 2013* (New Zealand).

Members of the public in New Zealand who are not existing Shareholders on the Record Date are not entitled to apply for any New Securities.

This Prospectus has been prepared in accordance with section 713 of the *Corporations Act 2001* (Cth) (Australia). This Prospectus has not been registered, filed with, or approved by any New Zealand regulatory authority under the *Securities Act 1978* (New Zealand). This Prospectus is not an investment statement or prospectus under New Zealand law and is not required to, and may not, contain all the information that an investment statement or prospectus under New Zealand law is required to contain.

(b) **Applicants outside Australia and New Zealand**

This Prospectus contains an offer to Eligible Shareholders in Australia and New Zealand.

This Prospectus does not constitute an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make such an offer or invitation.

No action has been taken to:

- (i) register or qualify the New Securities or the Offer, or to otherwise permit an offering of the New Securities, in any jurisdiction other than as set out in this Section 2.5; or
- (ii) lodge this Prospectus in any jurisdiction outside of Australia or to otherwise permit a public offering of New Securities in any jurisdiction outside Australia.

This Prospectus is not to be distributed in, and no offer of New Securities is to be made in, countries other than Australia or New Zealand.

It is the responsibility of Applicants to ensure compliance with any laws of country relevant to their application. Return of a duly completed Entitlement and Acceptance Form will be taken by Woomera Mining as a representation by the Applicant that there has been no breach of such laws, that the Applicant is an Eligible Shareholder and that the Applicant is physically present in Australia or New Zealand.

This document is not for publication or distribution, directly or indirectly, in or into the United States. This document is not an offer of securities for sale into the United States or to, or for the account or benefit of, US Persons.

Neither this Prospectus nor the New Securities have been, or will be, registered under the *Securities Act of 1933* (US) or the securities laws of any state of the United States and the Offer is not being made in the United States or to persons resident in the United States. Without limitation, neither this Prospectus nor the accompanying Entitlement and Acceptance Form may be sent to investors in the United States or otherwise distributed in the United States. No public offering of securities is being made in the United States.

Recipients may not send or otherwise distribute this Prospectus or the Entitlement and Acceptance Form to any person outside of Australia or New Zealand (other than to Eligible Shareholders).

2.6 Rights issue exception not available

No nominee has been appointed for Ineligible Shareholders under section 615 of the Corporations Act and, as such, Eligible Shareholders will not be able to rely on the exception for rights issues in Item 10 of section 611 of the Corporations Act. Accordingly, when an Eligible Shareholder applies for some or all of its Entitlement, it must have regard to the takeovers prohibition in section 606 of the Corporations Act (that is, the 20% voting power threshold). Eligible Shareholders who may be at risk of exceeding the 20% voting power threshold in section 606 of the Corporations Act as a result of acceptance of the Offer should seek professional advice before completing and returning the Entitlement & Acceptance Form.

2.7 Custodians and nominees

The Offers are being made to all Eligible Shareholders. Woomera Mining is not required to determine whether or not any Eligible Shareholder is acting as a nominee or the identity or residence of any beneficial owners of Shares.

Where any registered holder that qualifies as an Eligible Shareholder is acting as a nominee for a foreign person, that registered holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Offers is compatible with applicable foreign laws.

Any person in the United States, or any person that is, or is acting for the account or benefit of a US Person with a holding through a nominee, may not participate in the Offers and the nominee must not take up any entitlement or send any materials into the United States or to any person that is, or is acting for the account or benefit of, a US Person.

2.8 Non-Renounceable Offers

The rights to New Securities under the Offers are non-renounceable. Accordingly, there will be no trading of rights on the ASX, and you may not dispose of your rights to subscribe for New Securities under the Offers to any other party. If you do not take up your entitlement to New Securities under the Offers by the Closing Date, the offers to you will lapse.

Eligible Shareholders who choose not to take up their rights will receive no benefit and their shareholding in the Company will be diluted as a result.

2.9 Underwriting

The Offers are not underwritten.

2.10 Fractional entitlements

Any fractional entitlements to a New Share will be rounded up to the nearest whole number of New Shares.

2.11 Issue of New Securities under the Offers

The issue of New Securities offered by this Prospectus will take place as soon as practicable after the Closing Date.

Pending the issue of the New Securities or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the Applicants in a separate bank account as required under the Corporations Act. No interest will be paid on any Application Monies received or refunded.

Holding statements for New Shares issued under the Prospectus will be dispatched as soon as practicable after their issue.

2.12 ASX Quotation

Application for official quotation by ASX of the New Securities offered under this Prospectus has been made.

If the New Securities are not admitted to official quotation by ASX before the expiration of 3 months after the date of issue of this Prospectus, or such other period as varied by ASIC, the Company will not issue any New Securities and will repay all application monies for the New Securities within the time prescribed under the Corporations Act without interest.

The fact that ASX may grant official quotation to the New Securities is not to be taken in any way as an indication of the merits of the Company or the New Securities offered for subscription.

2.13 Junior Mineral Exploration Incentive Scheme

The Company has received approval from the Australian Tax Office (**ATO**) to participate in the Federal Government's Junior Minerals Exploration Incentive (**JMEI**) scheme for the tax year ending 30 June 2020 and has been allocated up to \$582,300 of JMEI credits. The JMEI scheme allows persons who are required to lodge a tax return in Australia and who apply for and are issued Shares as part of the Company's capital raising activities between 1 July 2019 and 30 June 2020 (**JMEI Eligible Shareholders**) to receive JMEI credits on a pro-rata basis. JMEI credits entitle JMEI Eligible Shareholders to refundable tax offsets (for individual shareholders or superannuation funds) or franking credits (for companies). The number of JMEI credits is variable in relation to the level of exploration expenditure of the Company, total shares issued by the Company, and both the Eligible Shareholder's and the Company's financial circumstances. Such variation will affect Eligible Shareholder's entitlement, and the Company cannot guarantee the number of JMEI credits actually received by the Eligible Shareholder. The JMEI credits will be issued after the lodgement of the Company's 30 June 2020 tax return. JMEI Eligible Shareholders are expected to be notified by the Company of their JMEI credit

entitlement (if any) in the approved form by 30 September 2020, and the JMEI credits will apply to their income tax assessment for the year ended 30 June 2020.

Receiving a JMEI credit could have tax consequences and JMEI Eligible Shareholders should obtain independent tax advice specific to their personal circumstances. Further information on the JMEI scheme can be found on the ATO's website.

Refer to Section 8.2(s) regarding the risks associated with the potential participation in the JMEI Scheme.

2.14 Further Taxation implications

Applicants should be aware that there may be taxation implications in participating in the Offers and subscribing for New Securities. The taxation consequences of participating in the Offers or acquiring New Securities may vary depending upon the individual circumstances of each Applicant. Before making a decision on whether or not to participate in this Offers, Applicants should consult their own professional taxation advisers to obtain advice in relation to the taxation laws and regulations applicable to their personal circumstances.

3. Purpose and Effect of the Offers

3.1 Purpose of the Offers

The funds raised from the Placement and issue of New Shares through the Offers, are expected to provide the Company with \$3,318,581 in additional capital (before costs of the issue) on a fully subscribed basis.

The Company intends to allocate the funds raised under the Placement and Offers as set out in the tables below. However, in the event that circumstances change or other more favourable opportunities arise, the Directors reserve the right to vary the proposed use of funds to maximise the benefit to Shareholders.

To the extent that the Company does not raise the full amount of funds it is seeking to raise under the Placement and Offers, the Company will reduce its expenditure proportionally as required.

Source of Funds	Amount (A\$)
Placement	529,403
Proceeds from the Offers (fully subscribed)	2,789,178
Proposed funds on completion of the Offers (fully subscribed)	\$3,318,581

Use of Funds	Amount (A\$)
Acquisition of 80% interest in Mt Venn Gold Project	980,000

Exploration expenditure in relation to Mt Venn Gold Project	1,200,000
Working Capital	853,581
Expenses of the Offers	285,000
Total	\$3,318,581

Notes:

- The above Use of Funds table is a statement of current intentions as at the date of lodgement of this Prospectus with ASIC. As with any budget, intervening events (including exploration success or failure) and new circumstances have the potential to affect the ultimate way in which funds may be applied. The Company reserves the right to alter the way in which funds are applied on this basis.
- Exploration expenditures are reviewed on an on-going basis, depending on the results of its proposed exploration operations.
- The Company intends to allocate its existing funds on its other key exploration projects.
- Corporate development and working capital will allow the Company to pursue commercial opportunities that have presented.

3.2 Acquisition of 80% interest in Mt Venn Gold Project

One of the primary purposes of the Offers is to fund the Acquisition.

There are several conditions precedent to the completion of the Acquisition, and accordingly the use of funds for the purpose of the Acquisition, notably:

- a restructure of the target company group so that Yamarna West is the holder of at least 80 percent interest in the Tenements, free of encumbrances, with all inter-company loans fully discharged;
- the Company being satisfied with the results of its purchaser financial, legal and commercial due diligence on both Yamarna West and the Tenements;
- all necessary approvals and authorisations being obtained or retained, including in relation to the operation of the Tenements, environmental rehabilitation and Native Title matters; and
- completion of the Offers.

Refer to Section 1 for more information on the Mt Venn Project, Section 8.3 for more information in respect of the Company's specific disclosures in respect of the Acquisition risks, and Section 9 for more information on the material contracts that give effect to the Acquisition.

3.3 Effect of the Offers

The principal effects of the Offers will be to:

- (a) increase the Company's cash reserves after the Placement and Offers by approximately \$2,053,581 on a fully subscribed basis after taking into account the costs of the Offer and payment to CAZ pursuant to the terms of the Acquisition;
- (b) fund the acquisition of an 80% interest in the Mt Venn Gold Project from CAZ and provide further funding for exploration under the proposed joint venture with CAZ (refer Section 3.2);
- (c) provide the Company will additional capital for the purposes referred to in Section 3.1; and
- (d) increase the total number of issued Shares and Options (refer Section 3.4).

3.4 Effect of the Offers on capital structure

The effect of the Offers on the capital structure of the Company will be as follows:

Shares	Full Subscription
Number of Shares on issue at 7 August 2019 (the last practicable trading day prior to announcement of the Offers excluding the Placement).	112,704,433
Number of Shares to be issued to sophisticated and professional investors under the Placement:	21,176,108
Number of Shares to be issued pursuant to the Acquisition:	
(a) Shares to be issued to Cazaly Resources as vendor; and	7,000,000 ¹
(b) Shares to be issued to advisors in respect of the Acquisition.	4,000,000 ²
Maximum number of Shares to be issued under the Offers.	111,567,118
Maximum number of Shares on issue following the Placement and the Offers.	245,447,659 ³
Options	Number
Number of Existing Options on issue at 7 August 2019.	14,332,835
Number of Options to be issued under the Placement:	
(a) Options to be issued to sophisticated and professional investors in accordance with their entitlement; and	10,588,054 ⁴
(b) Options to be issued to advisors.	3,500,000 ⁴
Maximum number of Options to be issued to brokers in connection with the Placement and the Offers.	17,274,323 ⁵
Maximum number of Options to be issued under the Offers.	55,783,559

Maximum number of Options on issue following the Offers.	101,478,771
Shares resulting from exercise of Options	Number
Maximum number of Shares to be issued on exercise of New Options (assuming all New Options are exercised by the Exercise Date and applicable Shareholder approvals are granted).	101,478,771
Maximum number of Shares on issue following the exercise of all New Options (assuming no other issue of Shares by WML).	346,926,430

- 1 The Shares are to be issued to Cazaly Resources in accordance with the Share Purchase Agreement (detailed at 9.1) and will settle on completion of the Acquisition.
- 2 The issue of Shares to advisors under the Placement is subject to Shareholder approval.
- 3 The maximum number of Shares on issue following the Offers does not include:
 - (a) the Shares to be issued to advisors, as these are subject to subsequent Shareholder approval at the Company's AGM in November 2019; or
 - (b) the Shares to Cazaly Resources pursuant to the Acquisition, as these Shares will not settle until completion occurs in respect of the Acquisition.
- 4 The issue of Options under the Placement, including the issue of the Options to the advisors, is subject to Shareholder approval.
- 5 The issue of Options to the brokers in connection with the Placement and the Offers is subject to Shareholder approval.

The figures in the table above are approximate as individual Entitlements will be rounded up to the nearest whole figure.

3.5 Dilution

If Eligible Shareholders do not take up their full Entitlements under the Offers, then the interests of those Eligible Shareholders will be diluted.

The proportional interests of Ineligible Shareholders will be diluted because those Ineligible Shareholders are not entitled to participate in the Offers.

3.6 Effect of the Offers on financial position

A principal effect of the Offers on the Company, assuming that the Offers are fully subscribed (without taking into account the impact of rounding), will be that cash reserves will increase from \$780,733 as at 30 June 2019 (unaudited) to \$2,834,314 based on the pro forma balance sheet as at 30 June 2019 (assuming that the Placement and the Offers were completed as at this date) set out below.

A pro forma balance sheet as at 30 June 2019 has been prepared, and is set out below for illustrative purposes, but it has not been audited or reviewed. The pro forma balance sheet has been prepared on the basis of the accounting policies normally adopted by the Company, and

reflect the changes to its financial position (assuming that the Placement and the Offers were completed as at 30 June 2019).

The pro forma balance sheet has been prepared on the basis that the Offers are fully subscribed, and there have been no material movements in assets and liabilities of the Company between 30 June 2019 and the date of this Prospectus other than:

- (a) impact of the Placement (net of expenses) on the cash balance;
- (b) impact of the Offers (net of expenses) on the cash balance; and
- (c) expenses of the Placement and Offers of approximately \$285,000.

The pro forma balance sheet has been prepared to provide Shareholders with information on the pro forma assets and liabilities of the Company as noted below. The historical and pro forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by the Australian Accounting Standards applicable to annual financial statements.

Notes

- (1) The Placement as announced on 12 August 2019 raised \$529,402.70 through the issue of 21,176,108 fully paid ordinary shares at an issue price of \$0.025 per share. The net proceeds from the Placement after payment of costs of the placement are \$489,509.
- (2) In the event that the maximum number of New Shares are issued under the Offers, the Company's cash and issued capital balances will increase by approximately \$3,033,582.
- (3) The Company will also pay the expenses of the Placement and the Offers of approximately \$285,000.
- (4) The Company will also pay the balance of the costs in acquiring the Mt Venn asset as part of the Acquisition in the amount of \$980,000.
- (5) The Pro Forma Balance Sheet does not reflect the issue or exercise of any of the New Options, and the post-Placement and Offers position is as at immediately following completion of the Offers.
- (6) The values in respect of the Placement and the Offers assumes no further Shares or convertible securities are issued prior to the Record Date, and that the Placement and Offers are fully subscribed.

3.7 Effect of the Offers on the control of the Company

If all Eligible Shareholders take up their full Entitlement, then each Eligible Shareholder's percentage ownership interest (and voting power) in the Company will remain the same and there will be no effect on the control of Woomera Mining.

If an Eligible Shareholder does not take up all of their Entitlement, its percentage ownership interest (and voting power) in Woomera Mining will be diluted. The proportional ownership (and voting power) of Ineligible Shareholders will be diluted because such Shareholders are not entitled to take up New Shares under the Offer.

As the Company does not propose to apply to ASIC for approval of the appointment of a nominee for the purposes of section 615 of the Corporations Act, no person will be permitted to acquire New Shares under the Offers to the extent that such acquisition results in that person holding a relevant interest exceeding 20% of the issued share capital of the Company on a post issue basis.

The current substantial shareholders of Woomera Mining as at the date of this Prospectus (and following the Placement), according to substantial holding notices lodged with the Company, are as follows:

Substantial Shareholder	No. of Shares	% of current issued Share Capital
Davan Nominees Pty Ltd	15,715,167	11.74%
Houmar Nominees Pty Ltd	12,153,338	9.08%
Casada Holdings Pty Ltd <CA Astill Investment A/C>	10,920,006	8.16%
Judith Rose Triggs & Donald Triggs <D&J Triggs Super Fund A/C>	8,240,401	6.16%
Adelaide Equity Partners Ltd	6,879,348	5.14%

Examples of how the dilution may impact Shareholders is set out in the table below:*

Holder	Holding as at date of Prospectus	% as at date of Prospectus	Entitlements under Priority Offer	% post Offer if Entitlements not taken up
Davan Nominees Pty Ltd	15,715,167	11.74%	8,185,398	7.72%
Houmar Nominees Pty Ltd	12,153,338	9.08%	6,330,184	5.97%
Casada Holdings Pty Ltd <CA Astill Investment A/C>	10,920,006	8.16%	5,002,340	4.72%
Judith Rose Triggs & Donald Triggs <D&J Triggs Super Fund A/C>	8,240,401	6.16%	4,292,093	4.05%
Adelaide Equity Partners Ltd	6,879,348	5.14%	3,583,175	3.38%

* The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted are placed under either the Shortfall Offer or Public Offer.

3.8 Market price of Shares

The highest and lowest closing prices of the Shares for the 6 months up to 7 August 2019 were:

Highest \$0.060 on 7 February 2019

Lowest \$0.020 on 18 June 2019

The volume weighted average sale price (VWAP) on the ASX of the Shares for the periods set out below ending 7 August 2019 were:

2.87 cents VWAP for the 45 day trading period;

2.93 cents VWAP for the 30 day trading period; and

3.04 cents VWAP for the 5 day trading period.

The closing price of the Company's Shares on ASX as at the close of business on 7 August 2019 was \$0.031 per Share.

No guarantee or assurance is given in relation to the market price of Shares at the Closing Date or at any time after the date of this Prospectus. Applicants should refer to Section 8 in relation to Risk Factors.

4. How to accept the Offer

4.1 How to take up all or part of your Entitlement under the Priority Offer

To subscribe for New Securities offered to you, please:

- (a) complete the accompanying **Priority Offer Entitlement & Acceptance Form** according to the instructions on the form for all, or that part of your Entitlement you wish to subscribe for; and
- (b) forward the completed form together with payment of the appropriate application monies to the Company's Share Registry in the manner provided in Section 3.5.

If you apply and pay via BPAY, you do not need to return the Priority Offer Entitlement & Acceptance Form, you simply need to make payment in accordance with the instructions on the accompanying Priority Offer Entitlement & Acceptance Form for the number of New Shares you wish to apply for, multiplied by the Offer Price.

To apply online, please visit <https://wmloffert.thereachagency.com>, follow the instructions and then complete a BPAY payment. If you do not make a BPAY payment, your Application will be incomplete and will not be accepted. Your online Application Form and payment must be completed and received by no later than 5:00pm ACST on the Closing Date. If you are applying online using an online Application Form and making your application payment by BPAY, you will be given a BPAY biller code and unique customer reference number for your Application once you have completed your online Application Form. BPAY payments must be made from an Australian dollar bank account of an Australian financial institution.

Using these BPAY details, you must:

- (a) access your participating BPAY financial institution either through telephone or internet banking;
- (b) select to use BPAY and follow the prompts;
- (c) enter the supplied biller code and unique customer reference number;
- (d) enter the total amount to be paid which corresponds to the value of Shares you wish to apply for under each Application;
- (e) select which account you would like your payment to come from;
- (f) schedule your payment to occur on the same day that you complete your online Application Form. Applications without payment will not be accepted; and

- (g) record and retain the BPAY receipt number and date paid.

You should be aware that your own financial institution may implement earlier cut-off times with regard to BPAY or other electronic payments and you should therefore take this into consideration when making payment. It is your responsibility to ensure that funds submitted through BPAY or other electronic payments are received by 5:00pm (ACST) on the Closing Date.

Acceptances will not be valid if they are received after the Closing Date. If the Company does not accept an application under the Priority Offer for any reason, the Company will refund any excess application monies to the Applicant, without any interest, as soon as practicable after the Closing Date.

Refer to Section 4.2 for details of how to apply for Shortfall Shares in addition to your Entitlement.

4.2 How to apply for Shortfall Shares under the Shortfall Offer

If you wish to accept your Entitlement in full and apply for Shortfall Shares, please:

- (a) complete the accompanying **Priority Offer Entitlement & Acceptance Form** according to the instructions on the form;
- (b) fill in the number of Shortfall Shares you wish to apply for in the space provided on the **Priority Offer Entitlement & Acceptance Form**; and
- (c) forward the completed form together with payment of the appropriate application monies to the Company's Share Registry in the manner provided in Section 3.5.

If you apply and pay via BPAY, you do not need to return the Priority Offer Entitlement & Acceptance Form, you simply need to make payment in accordance with the instructions on the accompanying Priority Offer Entitlement & Acceptance Form for the number of New Shares you wish to apply for, multiplied by the Offer Price. You can also apply online via BPAY by visiting <https://wmloffer.thereachagency.com> and following the instructions detailed in Section 4.1.

Acceptances will not be valid if they are received after **5:00pm (ACST) on the Closing Date** or such later date as the Directors determine.

4.3 Lapse of rights

If you decide not to accept all or part of your Entitlement or fail to do so by the Priority Offer Closing Date, your Entitlement will lapse and will form part of the Shortfall Offer or the Public Offer. You will receive no benefit or New Securities.

4.4 Public Offer

To the extent that fewer than 111,567,118 New Shares are applied for under the Priority Offer and the Shortfall Offer, those New Shares will be available for subscription under the Public Offer.

Applications for New Shares under the Public Offer may be made using the **Public Offer Entitlement & Acceptance Form** or via the offer website at

<https://wmlofffer.thereachagency.com>. Applications must be for a minimum of 20,000 New Shares and thereafter in multiples of 2,000 New Shares.

If you wish to apply for New Shares under the Public Offer, please:

- (a) complete the accompanying **Public Offer Entitlement & Acceptance Form** according to the instructions on the form;
- (b) fill in the number of New Shares you wish to apply for in the space provided on the **Public Offer Entitlement & Acceptance Form**; and
- (c) forward the completed form together with payment of the appropriate application monies to the Company's Share Registry in the manner provided in Section 4.5.

To apply for the Public Offer online, please visit <https://wmlofffer.thereachagency.com>, follow the instructions and then complete a BPAY payment. If you do not make a BPAY payment, your Application will be incomplete and will not be accepted. Your online Application Form and payment must be completed and received by no later than 5:00pm ACST on the Closing Date.

Acceptances will not be valid if they are received after **5:00pm (ACST) on the Closing Date** or such later date as the Directors determine.

4.5 Payment

Payments must be made with your acceptance by **5.00pm (ACST) on the Closing Date**, or such later date as the Directors determine, and must be made in Australian currency and by:

- (a) cheque drawn on and payable at any Australian bank;
- (b) bank draft drawn on and payable at any Australian bank; or
- (c) BPAY.

Your Entitlement & Acceptance Forms, together with your cheque or bank draft for the appropriate application monies (at \$0.025 per New Share subscribed) must be sent to the Company's Share Registry, Computershare Investor Services Pty Limited, at:

By Post:

Woomera Mining Limited
c/- Computershare Investor Services Pty Ltd
GPO Box 505
Melbourne VIC 3001

so that they are received by the registry **by no later than 5.00pm (ACST) on the Closing Date** or such later date as the Directors determine.

If you wish to pay by BPAY you do not need to return the Entitlement & Acceptance Form, you simply need to follow the instructions on the relevant Entitlement & Acceptance Form or apply online at <https://wmlofffer.thereachagency.com>. Different financial institutions may implement earlier cut off times with regards to electronic payment, so please take this into consideration

when making payment. It is your responsibility to ensure that funds submitted through BPAY for the Priority Offer or Shortfall Offer are received by the Closing Date.

Your cheques or bank draft must be made payable to 'Woomera Mining Limited' and crossed 'Not Negotiable'. Cash payments will not be accepted and receipts for payment will not be provided.

Application monies received under this Prospectus will be held on trust until the New Securities are issued or the application monies are returned (without interest) to the Applicants.

4.6 Effect of application

By applying for New Securities under the Offer (including by way of payment through BPAY), an Applicant is taken to:

- (a) agree to be bound by the terms and conditions set out in this Prospectus and the accompanying Entitlement and Acceptance Form;
- (b) acknowledge the statement of risks in Section 8 of this Prospectus and that investments in Woomera Mining are subject to risk;
- (c) represent and warrant that they satisfy the criteria of being an Eligible Shareholder or Applicant as set out in this Prospectus;
- (d) authorise the Company to place the Applicant's name on the Company's shareholder register in respect of those New Securities; and
- (e) agree to be bound by the Company's Constitution.

Any application for New Securities under the Offer (including by way of payment through BPAY), once lodged, cannot be withdrawn.

5. Shortfall Shares & Public Offer

Shortfall Shares will only be issued if the Priority Offer is undersubscribed. If there is any Shortfall, the Shortfall Shares will be allocated to Eligible Shareholders who have applied for Shortfall Shares at the discretion of the Directors.

To the extent any shortfall remains after allocation to Eligible Shareholders who have applied for Shortfall Shares, Woomera Mining will use its best endeavours to place those remaining Shortfall Shares under the Public Offer. Public Offer Shares will only be issued if the Priority Offer and Shortfall Offer are undersubscribed.

The Public Offer is a separate offer made under this Prospectus to both existing Eligible Shareholders and new external investors to the Company, who will be treated equally in the allocation of any Public Offer Shares.

To the extent that it is commercially practicable, and taking into account Woomera Mining's requirement for funds, the directors (in consultation with the lead manager) will endeavour to allot the Shortfall Shares and Public Offer Shares to a spread of Applicants, in order to mitigate any control effects which may arise from issuing Shares to a single or small number of investors. In any event, no Applicant will be permitted to acquire Shares under the Shortfall Offer or Public

Offer to the extent that such acquisition would result in that Applicant having a voting power in Woomera Mining in excess of 20% (on a post issue basis).

Any Shortfall Shares or Public Offer Shares so issued will, in accordance with the Listing Rules, be issued within 3 months after the Closing Date and will be issued at a price that is not less than the Offer Price of the New Shares under the Offer.

The Company will not issue Shortfall Shares or Public Offer Shares where it is aware that to do so would result in a breach of the Corporations Act, the Listing Rules or any other relevant legislation or law. Eligible Shareholders wishing to apply for Shortfall Shares or Public Offer Shares must consider whether the issue of the Shortfall Shares or Public Offer Shares applied for would breach the Corporations Act or the Listing Rules having regard to their own circumstances.

The Directors reserve the right to reject any application for Shortfall Shares or Public Offer Shares, or to allot a lesser number of Shortfall Shares or Public Offer Shares than applied for. Application monies received but not applied towards subscriptions for Shortfall Shares or Public Offer Shares will be refunded as soon as practicable. No interest will be paid on application monies held and returned.

6. Rights and Liabilities Attaching to New Shares

The New Shares will rank equally in all respects with existing Shares.

The following is a summary of the more significant rights and liabilities attaching to New Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Company's Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

6.1 Rank equally

New Shares are ordinary shares in the capital of the Company and rank equally with all other ordinary shares issued by the Company. Currently all Shares issued by the Company are ordinary shares.

6.2 Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at a general meeting of Shareholders:

- (a) each Shareholder is entitled to vote and may vote in person, or by proxy, attorney or representative;
- (b) on a show of hands, each person present who is a Shareholder, or a proxy, attorney or representative of a Shareholder has one vote; and

- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder will, in respect of each fully paid Share held, or in respect of which the Shareholder appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid Shares will have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

6.3 Dividends

Subject to the Corporations Act, the Listing Rules, and any rights or restrictions attached to a class of shares, the Company may pay dividends as the Directors authorise.

6.4 Meetings and notices

Each Shareholder is entitled to receive notice of, and to attend, general meetings of the Company and to receive all notices, accounts and other documents required to be sent to Shareholders under the Constitution of the Company, the Corporations Act or the Listing Rules.

Shareholders may requisition meetings in accordance with the Corporations Act.

6.5 Winding up

If the Company is wound up and the property of the Company is more than sufficient to pay the debts and liabilities of the Company and the costs of winding up, Shareholders will have the right to participate equally in the distribution of its property subject to any amounts unpaid on the Share.

6.6 Transfer of shares

Subject to the Company's Constitution, the Corporations Act and any other laws and ASX Settlement Operating Rules and ASX Listing Rules, Shares are freely transferable.

6.7 Future increases in Capital

The allotment and issue of any Shares is under the control of the Directors. Subject to restrictions on the allotment of Shares in the ASX Listing Rules, the Company's Constitution and the Corporations Act, the Directors may allot Shares on such terms and conditions as they determine in their absolute discretion.

6.8 Variation of rights

Under the Corporations Act, the Company may, with the approval of a special resolution passed at a meeting of Shareholders, vary or abrogate the rights attaching to Shares. If at any time the share capital is divided into different classes of shares unless the terms of issue of the Shares of a class state otherwise, the rights attaching to any class may be varied or abrogated with the approval of a special resolution passed at a meeting of Shareholders, together with the consent in writing of the holders of three quarters of the issued shares of that class, or a special resolution passed at a separate meeting of the holders of the shares of that class.

7. Rights and Liabilities Attaching to New Options

The New Options entitle the Optionholder to subscribe for Shares on the following terms and conditions:

7.1 Entitlement

Each New Option gives the Optionholder the right to subscribe for one Share. To obtain the right afforded by each Option, the Optionholder must exercise the relevant Options in accordance with the terms and conditions attaching to the Options. Subject to variation in the share capital of the Company, the amount payable by the Optionholder on the exercise of each option shall be \$0.08 (**Exercise Price**).

7.2 Exercise

The Options will expire on the date which is 24 months from the date of issue (**Option Expiry Date**), unless exercised earlier pursuant to the terms and conditions of the Options. Any Option not exercised before the Option Expiry Date will automatically lapse on the Option Expiry Date.

The Options shall be exercisable at any time on or prior to the Option Expiry Date by the Optionholder providing a notice in writing to the Company and payment of the Exercise Price in cleared funds (**Exercise Notice**). Within 10 business days of receipt of the Exercise Notice, the Company will:

- (a) allot and issue such number of Shares in the Company as required by the terms and conditions with reference to the number of Options specified in the Exercise Notice;
- (b) if required, provide the ASX with a notice that complies with section 708A(5)(e) of the Corporations Act or, if the Company is unable to issue such a notice or such notice is not effective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all things necessary to ensure that an offer for sale of Shares does not require disclosure to investors pursuant to section 708A(11) of the Corporations Act.

7.3 Rank equally

Shares issued on the exercise of the Options will rank equally with the Shares on issue at the time of the exercise. If the Company is admitted to the official list of the ASX on the date of the exercise of the Options, application will be made by the Company to the ASX for official quotation of the Shares that result from the exercise of the relevant Options.

7.4 Rights attaching to Options

If at any time the issued capital of the Company is reconstructed, the number of Options and the Exercise Price will be adjusted accordingly, in a manner that the auditors of the Company advise is fair and reasonable in their option, and in all cases in accordance with the provisions of the Listing Rules and the Corporations Act. Other than for such an adjustment, an Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the Option is capable of exercise.

There are no participation rights or entitlements inherent in the Options, and Optionholders will not be entitled to participate in new issues of capital offered to shareholders by virtue of the Options. The Company will notify all Optionholders that hold Options capable of exercise prior to the relevant qualifying date for the new issue of capital no less than 10 business days prior to the closing date of that offer, so as to enable those Optionholders to exercise some or all of their Options such that they may then participate in the relevant issue of capital.

7.5 Issue of Options pursuant to Placement

The issue of Options pursuant to the Placement will be subject to Shareholder approval.

7.6 Quotation of the Options

The Company will apply to ASX for quotation of the Options. Subject to the quotation requirements being met, the Options will be quoted.

7.7 Compliance with Listing Rules

If, and to the extent, any of the preceding terms and conditions in respect of the Options are inconsistent with the Listing Rules, the Listing Rules will prevail in all respects to the extent of the inconsistency.

8. Risk Factors

8.1 Introduction

An investment in the Company carries risks, including those specific to the Acquisition, those broader risks which affect the mining industry and those more general risks associated with investing in the share market.

This section identifies some of the major risks associated with an investment in the Company. Intending Applicants should consider the risk factors described below, together with information contained elsewhere in this Prospectus, before any decision is made to subscribe for Shares.

There are numerous risks which could materially and adversely affect the financial and operating performance of the Company, which in turn could impact the value of the Shares. The Directors and management have implemented internal controls and processes to mitigate some of these risks. There are however risks over which the Company, the Directors and management will be unable to exert significant influence.

Any potential investor should be aware that subscribing for Shares involves various risks. The Shares to be issued pursuant to the Prospectus carry no guarantee with respect to the payment of dividends, return of capital or the market value of those Shares.

An investment in Shares of the Company should therefore be considered speculative. The following risk factors in this Section 7 are not intended to be an exhaustive list of the risk factors to which the Company is exposed. In addition, this section has been prepared without taking into account Applicants' individual financial objectives, financial situation and particular needs. Applicants should seek professional investment advice if they have any queries in relation to making an investment in the Company.

8.2 Specific risks

(a) Exploration and Development

The business of exploration, project development and mining contains risks by its very nature. To prosper, a mining exploration and development company needs to have successful exploration operations and acquisition of reserves; it must be competent in the design and construction of efficient production/processing facilities, and must be competent in its operations and managerial performance and must be proficient in the marketing of product.

There can be no assurance that funds spent on exploration will result in the discovery of an economic resource, and even if an apparently viable deposit or economic resource is identified, there is no guarantee that it can be viably or commercially exploited. Refer to Section 8.3 for more detail regarding the risks associated with exploration and development specifically related to the Acquisition.

(b) Operations

The operations of the Company may be affected by various factors including failures in internal controls and financial fraud. To the extent that such matters may be within the control of the Company, the risks will be addressed through management and supervision controls.

The exploration programs of the Company and project development and mining operations may be affected by numerous factors beyond the control of the Company. These may include adverse weather conditions, industrial and environmental accidents, industrial disputes and unexpected shortages or increases in the costs of consumables, plant and equipment, and events involving fire or explosions and the occurrence of other incidents beyond the control of the Company.

(c) Environmental

The mineral exploration sector operates under Australian Federal and State environmental laws. The Company's operations may require it to use hazardous materials and produce hazardous waste which may be alleged to have an adverse impact on the environment or cause exposure to hazardous materials. Despite efforts on the part of the Company to conduct its activities in an environmentally responsible manner and in accordance with all applicable laws, the Company may be subject to litigation as a consequence. This may extend to being the subject of investigation by environmental authorities and incurring clean up obligations. This exposure could delay the timetable of a project and may subject the Company to restrictions and substantial penalties, including fines, damages, clean-up costs and other penalties.

(d) Mineralisation

Mining exploration operations are high risk. Each ore body is unique and the nature of mineralisation, the occurrence and grade of any ore, and its behaviour during mining, cannot be wholly predicted. Estimates of a mineral deposit are not precise calculations, but are based on interpretation and on samples from drilling, which may represent a very small sample of the entire ore body.

(e) **Tenements**

The Company's interest in Tenements and Tenement Applications situated in South Australia and Western Australia are governed by legislation and are evidenced by the granting of leases and licences by the relevant States.

The Tenements and Tenement Applications will be subject to the *Mining Act 1971* (SA) (in the case of the South Australian tenements) and the *Mining Act 1978* (WA) (in the case of the Western Australian tenements). The Company will have an obligation to meet conditions that apply to the tenements under the above legislation, including the payment of rent and prescribed annual expenditure commitments.

Despite the Company's intention to be in full compliance with all obligations applicable to the tenements, there can be no guarantee that tenements that are subject to renewal will be renewed or that expenditure commitments and other conditions that apply to the tenements, will be satisfied.

Renewal conditions may be more onerous by requiring for example increased expenditure and work commitments or compulsory relinquishment of areas of the tenements.

(f) **Approvals**

The Company is reliant on environmental and other approvals in South Australia and Western Australia to enable it to proceed with the exploration and any development of the Tenements. There is no guarantee that the required approvals will be granted and failure by the Company to obtain the relevant approvals, or any delay in the award or transfer of the approvals, may materially and adversely affect the ability of the Company to proceed with the proposed exploration and development operations.

(g) **Access**

There is a substantial level of regulation and restriction on the ability of exploration and mining companies to have access to land in Australia.

Negotiations with both native title holders and landowners/occupiers are generally required before gaining access to land for exploration and mining activities. Inability or delays in gaining access may adversely impact on the Company's activities.

The Company may need to enter into compensation and access agreements before gaining access to land.

(h) **Native Title**

Many of the areas the subject of the Company's Tenements or Tenement Applications are subject in whole or in part to native title determinations, or claims made by native title parties and may contain aboriginal heritage sites. The ability of the Company to undertake exploration or development operations on that tenement may be delayed or prohibited in the event that applicable consents cannot be obtained from the relevant native title parties or aboriginal groups.

(i) **Approvals to Develop Mineral Deposits**

If the Company discovers an economically viable mineral deposit that it then intends to develop, it will require various approvals, licences and permits before it will be able to mine the deposit. There can be no guarantee that the Company will be able to obtain all required approvals, licences and permits promptly or at all. To the extent that required authorisations are not obtained or are delayed, the Company's operational and financial performance may be materially adversely affected.

(j) **Failure of Studies**

Subject to the results of exploration and testing programs to be carried out, the Company may progressively undertake a number of studies in respect of a project. These studies may include scoping, pre-feasibility, definitive feasibility and bankable feasibility studies. These studies will be undertaken within parameters designed to determine the economic feasibility of the project. There can be no guarantee that any of the studies will confirm the economic viability of the Project or the results of other studies undertaken by the Company (e.g. the results of a feasibility study may materially differ from the results of a scoping study).

Even if a study confirms the economic viability of a project, there can be no guarantee that the project will be successfully brought into production as assumed or within the estimated parameters in the feasibility study once production commences.

(k) **Additional Expenditure**

From time to time there may be a need to undertake expenditure that has not been taken into account in this Prospectus. Although the Company is not presently aware of any additional expenditure requirements, if such expenditure is subsequently incurred, this may have an adverse effect of the current expenditure proposals of the Company and negatively impact the business plan of the Company.

(l) **Additional Funding**

Although the funds to be raised under the Offers are considered sufficient to meet the immediate objectives of the Company (see the Use of Funds Table in Section 3.1), additional funding may be required by the Company in the event that costs exceed estimates or revenues do not match expectations. For example, additional funding may be required in order to undertake further exploration operations or to acquire complementary assets.

Accordingly, the Company may need to engage in equity or debt financings to secure additional funds. Any additional funding may be dilutive to Shareholders, may be undertaken at lower prices than the Offer Price or may involve restrictive covenants that limit the Company's operations.

There can be no assurance that such funding will be available on satisfactory terms or at all and any inability to obtain sufficient funding for the Company's activities and current or future projects may result in the delay or cancellation of those activities or projects.

(m) **Option Exercise Risk**

There is a risk that the prevailing market price for the Shares in the Company at the time of the exercise of the New Options may be less than the Exercise Price (refer to Section 7 for more detail), which shall have an effect on the value of the New Options.

The exercise of a New Option, and the allotment and issue of the Share to which that Option relates, may also have taxation consequences depending on each Shareholder's particular circumstances. Shareholders should seek their own taxation advice before exercising a New Option.

(n) **Competition**

The mining exploration and development sectors are subject to domestic and global competition. Although the Company will exercise reasonable due diligence in its business decision making and operations, the Company will have no influence or control over the activities or actions of its competitors, which actions may positively or negatively affect the operating and financial performance of the Company.

(o) **Commodity Price and Exchange Rate**

The price for minerals will depend on available markets.

To the extent the Company is involved in mineral production the revenue derived through the sale of commodities may expose the potential income of the Company to commodity price and exchange rate risks. The prices of minerals fluctuate widely and are affected by numerous factors beyond the control of the Company, such as industrial and retail supply and demand, exchange rates, inflation rates, changes in global economies, confidence in the global monetary system, forward sales of minerals by producers and speculators as well as other global or regional political, social or economic events. Future serious price declines in the market values of minerals could cause the development of, and eventually the commercial production from, the Company's Tenements to be rendered uneconomic. Depending on the prices of commodities, the Company could be forced to discontinue production or development and may lose its interest in some of its Tenements. There is no assurance that a profitable market of minerals will exist from time to time.

Furthermore, the international price of various commodities is typically denominated in United States dollars, whereas the income and expenditure of the Company are and will be taken into account in Australian dollars, thereby exposing the Company to the fluctuations and volatility of the rate of exchange between the United States dollar and the Australian dollar as determined in international currency markets.

In addition to adversely affecting the Company and its financial condition, declining commodity prices can impact operations by requiring a reassessment of the feasibility of a particular project. Such a reassessment may be the result of a management decision or may be required under financing arrangements related to a particular project. Even if a project is ultimately determined to be economically viable, the need to conduct such a reassessment may cause substantial delays or may interrupt operations until the reassessment can be completed.

(p) **Acquisitions**

From time to time the Company may undertake acquisitions of additional interests in mining tenements and other assets. The successful implementation of such acquisitions will depend on a range of factors including funding arrangements, geographical issues, staff continuity and compatibility of equipment or infrastructure. If acquisitions are not successfully integrated within the Company's operations, the financial performance of the Company could be adversely affected. At the time of any of such acquisitions the Company may decide that it is in the best interests of the Company and its Shareholders to fund the acquisition through the issue of further Shares. If this were to occur, it may result in the dilution of the ownership interests of Shareholders.

(q) **Changes in Laws and Government Policy**

The availability of rights to explore and mine, as well as industry profitability generally, can be adversely affected by changes in government policy and laws. The impact of actions by government may affect the Company's activities, including its access to land and infrastructure, compliance with environmental regulations, and exposure to taxation and royalties.

Changing attitudes to environmental land care, cultural heritage and indigenous land rights issues, together with the nature of the political process, provide the possibility of future policy changes. There is a risk that such changes may affect the Company's exploration plans or its rights and/ or obligations with respect to its tenements.

(r) **No Production Revenues**

At present the Company is not generating any revenues from its operations nor has it commenced commercial production on any of its Tenements. There can be no assurance that significant additional losses will not occur in the near future or that the Company will be profitable in the future. The Company's operating expenses and capital expenditures may increase in subsequent years as additional consultants, personnel and equipment associated with advancing exploration, development and commercial production of the Company's Tenements are added. The amounts and timing of expenditures will depend on the progress of ongoing exploration and development, the results of consultants' analyses and recommendations, the rate at which are beyond the Company's control.

The Company expects to continue to incur losses unless and until such time as its Tenements enter into commercial production and generate sufficient revenues to fund its continuing operations. The development of the Company's projects will require the commitment of substantial resources to conduct the time-consuming exploration and development activities. There can be no assurance that the Company will generate any revenues or achieve profitability. There can be no assurance that the underlying assumed levels of expenses will prove to be accurate.

Failure to obtain sufficient financing for the Company's activities and future projects may result in delay and indefinite postponement of its activities and potential development programmes. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be

favourable to the Company and might involve substantial dilution to Shareholders. The Company is exposed to risks associated with its financial instruments, cash, receivables, accounts payable and accrued liabilities due to third parties from time to time. This includes the risk that a third party to a financial instrument fails to meet its contractual obligations, the risk that the Company will not be able to meet its financial obligations as they fall due and the risk that market prices may vary which will affect the Company's financial position and prospects.

Additional funding will be required in the event costs exceed the Company's estimates and also to effectively implement business and operations plans in the future, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses which the Company may incur. If such events occur, additional financing will be required. The Company may seek to raise further funds through equity or debt financing, joint ventures, licensing arrangements or other means. Failure to obtain sufficient financing for the Company's activities and future projects may result in delay and indefinite postponement of activities and potential development programmes. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders.

(s) **Junior Mineral Exploration Incentive scheme**

The Company has received approval from the Australian Tax Office (**ATO**) to participate in the Federal Government's Junior Minerals Exploration Incentive (**JMEI**) scheme for the tax year ending 30 June 2020 and has been allocated up to \$582,300 of JMEI credits. The JMEI scheme allows persons who are required to lodge a tax return in Australia and who apply for and are issued Shares as part of the Company's capital raising activities between 1 July 2019 and 30 June 2020 (**JMEI Eligible Shareholders**) to receive JMEI credits on a pro-rata basis. JMEI credits entitle JMEI Eligible Shareholders to refundable tax offsets (for individual shareholders or superannuation funds) or franking credits (for companies). The number of JMEI credits is variable in relation to the level of exploration expenditure of the Company, total shares issued by the Company, and both the Eligible Shareholder's and the Company's financial circumstances. Such variation will affect Eligible Shareholder's entitlement, and the Company cannot guarantee the number of JMEI credits actually received by the Eligible Shareholder. The JMEI credits will be issued after the lodgement of the Company's 30 June 2020 tax return. JMEI Eligible Shareholders are expected to be notified by the Company of their JMEI credit entitlement (if any) in the approved form by 30 September 2020, and the JMEI credits will apply to their income tax assessment for the year ended 30 June 2020.

The issuance of JMEI credits is dependent on the Company completing the issue of Shares under the Offer before 30 June 2020. Further, JMEI credits cannot be created or issued to JMEI Eligible Shareholders until the Company lodges its 2020 income tax return. If the Company does not lodge its 2020 income tax return in accordance with the applicable tax law, the JMEI credits cannot be created or issued and there is a risk that JMEI Eligible Shareholders will not receive any JMEI credits.

8.3 Specific disclosure in relation to the Acquisition

(a) Unverified Exploration Results

The exploration results for the Project have been reported by Cazaly Resources based on information obtained by CAZ as opposed to the Company as acquirer of the interest in the Project pursuant to the Acquisition, and may not conform to the requirements in the JORC Code 2012, so it is possible that following further evaluation and/or exploration work that the confidence in the prior reported exploration results may be reduced. However, the Company continues to evaluate the exploration work that needs to be completed to report the Project's exploration results in accordance with the JORC Code 2012.

The Company has not independently validated the exploration results presented by CAZ, and therefore is not to be regarded as reporting, adopting or endorsing those results as presented. However, nothing has come to the attention of the Company or its Directors that causes it to question the accuracy or reliability of the current exploration results.

(b) Incomplete Competent Person Analysis

A Competent Person, as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves, has not done sufficient work to disclose the exploration results in accordance with the JORC Code 2012. However, Mr Gerard Anderson, a Competent Person, states that the information in this Prospectus concerning the Project is an accurate representation of the available data and studies for the Project.

8.4 General risks

(a) Forecasts

The Directors consider that it is not possible to accurately predict the future revenues or profitability of the Company or whether any revenues or profitability will eventuate. The business of the Company is dependent upon a number of factors and many of these factors are outside the control of the Company. Consequently the Company and the Directors do not make any forecast or representation in relation to the Company's future financial position or performance.

(b) Economic

General economic conditions, introduction of tax reform, new legislation, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's business activities and potential development programmes, as well as on the ability to fund those activities.

(c) Force majeure

The Company's business may be adversely affected by risks outside the control of the Company, including (but not limited to) labour unrest, civil disorder, subversive

activities or sabotage, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

(d) **Uninsured loss and liability**

Exploration for and development of minerals involves hazards and risks that could result in the Company incurring losses and liabilities to third parties. There is a risk that the Company may not be insured against all or any potential losses or liabilities that could arise from its activities. If the Company incurs losses or liabilities that are not covered by its insurance policies, the funds available for its business and activities will be reduced and could create risk for the value of the Company's assets.

(e) **Dependence upon outside parties**

The Company may pursue a strategy that forms strategic business relationships with other organisations in relation to potential products and services. There can be no assurance that the Company will be able to attract such prospective organisations and to negotiate appropriate terms and conditions with these organisations or that any potential agreements with such organisations will be complied with.

(f) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and mining stocks in particular. Neither the Company nor the directors warrant the future performance of the Company or any return to Shareholders arising from the Offer or any other event or occurrence.

(g) **Reliance on key personnel**

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially upon senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment or if one or more of the Directors leaves the Board.

(h) **Government regulation risk**

The Company's tenements and activities may be subject to extensive regulation by local, state and federal governments in relation to exploration, development, production, exports, taxes and royalties, labour standards, occupational health, waste disposal, protection and rehabilitation of the environment, mine reclamation, mine safety, toxic and radioactive substances, native title and other matters. Compliance with such laws and regulations will increase the costs of exploring, drilling, developing, constructing, operating and closing mines and other production facilities. There is a risk that approvals required for exploration and development programs and mining operations may not be forthcoming, either at all or in a timely manner, or that they may not be able to be obtained on acceptable terms. A failure to obtain any approval would mean that the ability to participate in or develop any project, or possibly acquire any project, may be limited or restricted either in part or absolutely. There can be no assurance that future government policy will not change, and this may adversely affect the long-term prospects of the Company. In addition, future changes in governments, regulations and policies may have an adverse impact on the Company.

(i) **Investment speculative**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Securities offered under this Prospectus.

Therefore, the New Shares to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Securities.

Potential investors should consider that the investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for New Securities pursuant to this Prospectus.

9. **Material Contracts**

9.1 **Yamarna West Share Sale Agreement**

The Company and Cazaly Resources have entered into a share purchase agreement in respect of the sale by Cazaly Resources of Yamarna West to the Company (**Share Purchase Agreement**). The key terms of the Share Purchase Agreement are as follows:

- (a) **(acquisition of Yamarna West)** The Company agrees to acquire, and Cazaly Resources agrees to sell, 100 percent of the issued share capital of Yamarna West for the amount of \$1,000,000 payable in two instalments; one on completion of the Share Purchase Agreement and one on the restructure of the expired tenements to amalgamate them with a current Tenement.
- (b) **(conditions precedent)** Completion under the Share Purchase Agreement is conditional on, among other things:

- (i) a restructure of the target company group so that Yamarna West is the holder of at least 80 percent interest in the Tenements, free of encumbrances, with all inter-company loans fully discharged;
 - (ii) all Tenements being in good standing;
 - (iii) the Company being satisfied with the results of its purchaser financial, legal and commercial due diligence on both Yamarna West and the Tenements;
 - (iv) all necessary approvals and authorisations being obtained or retained, including in relation to the operation of the Tenements, environmental rehabilitation and Native Title matters; and
 - (v) completion of the Offers; and
- (c) **(warranties and indemnities)** Cazaly Resources and Yamarna West have given extensive warranties to the Company in relation to, among other things, title and capacity, solvency, accuracy of financial accounts, material contracts, employees, tax, litigation, asset ownership including intellectual property, and the condition of the Tenements.

Completion under the Share Purchase Agreement will have the effect that the Company owns 100 percent of the issued share capital in Yamarna West and a corresponding 80 percent interest in the Tenements.

9.2 Mt Venn Exploration Joint Venture Agreement

Yamarna West and Cazaly Resources have agreed to enter into an exploration joint venture agreement in respect of Mt Venn (**JV Agreement**) to govern the relationship between the parties in relation to the Project.

Key terms of the JV Agreement have been agreed under a Heads of Agreement and the proposed JV Agreement is expected to include the following:

- (a) **(establishing the JV)** The objects of the JV Agreement will be to maintain the Tenements and undertake exploratory activities in respect of potential mineral mining operations. If exploration results in the probable existence of a commercially minable resource, the parties shall undertake a pre-feasibility study and conduct pilot operations to test the area.
- (b) **(conditions precedent)** The JV Agreement is to be conditional on each joint venture party obtaining all necessary authorisations, consents and approvals required in relation to mining operations, Native Title, and environmental regulations. These conditions precedent are not capable of waiver by either party. If either party fails to obtain the required authorisations within a period of four months from the commencement of the JV Agreement (unless otherwise agreed), then the other party may terminate.
- (c) **(proportional obligations)** The rights and obligations of the parties are proportional to their respective interests in the joint venture. The parties are also severally liable in those proportions for any liabilities, costs, or obligations that arise in the course of carrying out the joint venture activities. However, there is a free carry period for Cazaly Resources until Yamarna West has completed a pre-feasibility study.

- (d) **(warranties and indemnities)** The joint venture parties will give mutual warranties and indemnities in relation to, among other things, title, capacity and corporate authorisations. The parties will also indemnify and hold harmless the manager of the Mt Venn JV for all claims for loss, damage, expense or liability, including those made by third parties, arising in connection with the manager engaging in the joint venture activities, other than by the fraud or negligence of the manager.

10. Additional Information

10.1 Continuous disclosure obligations

The Company is a 'disclosing entity' (as defined in the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities.

This Prospectus is a 'transaction specific prospectus'. In general terms a 'transaction specific prospectus' is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all the assets and liabilities, financial position, profits and losses or prospectus of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act, states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with ASIC in relation to the Company may be obtained from, or inspected at, the offices of ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:
 - (i) the annual financial report of the Company most recently lodged with ASIC before the lodgement of this Prospectus with ASIC;

- (ii) any half-year financial report lodged by the Company with ASIC after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with ASIC; and
- (iii) any continuous disclosure documents given by the Company to ASX in accordance with the ASX Listing Rules as referred to in Section 674(1) of the Corporations Act after the lodgement of the annual financial report referred to in (i) and before the lodgement of this Prospectus with ASIC.

Copies of all documents lodged with ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.

Details of documents lodged by the Company with ASX since the date of lodgement of the Company's latest annual financial report and before the lodgement of this Prospectus with ASIC are set out in the table below:

10.2 No financial product advice

This document, and any document which accompanies it, are not, and may not be taken to be, financial product advice or a recommendation to acquire Shares. They have been prepared without taking into account the objectives, financial situation or needs of individuals. Before making an investment decision you should consider all relevant information having regard to your own objectives, financial situation and needs, and consult your stockbroker or other professional adviser.

10.3 Authorised and unauthorised information and representations

No person is authorised to give any information or make any representation in relation to the Offers which is not contained in this document, or in any document that accompanies it, or in any release by Woomera Mining to ASX. Any information or representation in relation to the Offers which is not contained in this document or in any document that accompanies it may not be relied upon as having been authorised by Woomera Mining or any of its officers.

10.4 Directors' interests

Other than as set out in this Prospectus, no Director or any entity in which a Director is a partner or director, has, or has had in the last 2 years before the date of this Prospectus, any interest in:

- (a) the formation or promotion of the Company;

(b) property acquired or proposed to be acquired by the Company in connection with its formation or promotion of the Offers; or
